- 7 tower door, available in five finishes, Pearl Gray, Oxford White, Autumn Oak, Sugarpine and Summer Walnut.
- 8 table modesty panel, available in Oxford White

for all storage

raceway storage chassis, tower chassis, mobile pedestal, wall mount storage and hutch storage available in Oxford White

freestanding table & credenza

U workstation shown

table snowberry

is available in glass top with glass modesty panel as well as laminate top with laminate modesty panel.

1 glass top and modesty panel in ultra clear and back painted glass with a 2mm beveled edge 1/2" thick in Pure White finish. glass table top is compliant with the requirements of the BIFMA 5.5 Desk Table Products standard for strength and stability tests. if the glass table needs to be moved, remove the glass top prior to moving the table.

2 laminate table top is 1" thick with a matching 2mm ABS flat edgeband. all wood substrate is EPA Toxic Substances Control Act (TSCA) Title VI certified.

table top is available in five finishes, Pearl Gray, Oxford White, Autumn Oak, Sugarpine and Summer Walnut.

3 laminate modesty panel is available in Oxford White

4 table legs are brushed aluminum in clear anodized finish. leg end trim in plastic in black finish.

5 frames fabricated in steel and powdercoated in Posh Silver finish.

6 leveling glides fabricated in carbon steel in chrome finish.

7 cutouts are standard on table snowberry tops for grommets or electrical surface mount modules. grommets and covers in plastic are included in silver finish. cutout dimensions, 2 1/8"D X 5 3/8"W

protective spacers are included for glass tops on the center of the frames and on corner connectors.

freestanding credenza

1 wood veneer credenza

available in two finishes, Sunrise Walnut and Midnight Ash. fabricated with premium hand selected natural walnut and ash veneer, quarter sliced and slip matched with matching wood edgeband. wood grain runs parallel to the length of all storage tops, wood grain runs vertical on all vertical storage surfaces, protected by waterborne finish for the common tops and an advanced UV-cured coating finish for the chassis in an open pore low sheen finish.

veneer credenza base units drawer, door and open come pre-assembled.

2 laminate credenza

3 laminate credenza common tops are available in five finishes, Pearl Gray, Oxford White, Autumn Oak, Sugarpine and Summer Walnut. storage chassis is in Oxford White.

tops are 1" thick with a matching 2mm ABS flat edgeband.

all freestanding credenza laminate tops are packed separately.

laminate credenza base unit drawers come pre-assembled, door and open units require assembly

all freestanding credenzas

4 floating glass tops

in ultra clear, tempered and back painted glass in Pure White finish with a 2mm beveled edge 1/2" thick.

5 support frame

is fabricated in steel and powdercoated in Posh Silver finish.

6 credenza pulls and locks are in chromium plated finish.

grommets standard on the back panel for wire management.

leveling glides adjustable to 3/4".

all lockable storage available in keyed alike or keyed random. keyed alike and keyed random cannot be mixed on any individual order.

[see pages 69-70 for lock and key program details]

all wood substrate is EPA Toxic Substances Control Act [TSCA] Title VI certified

table for L, T & U workstation

table top available in laminate only

- 1 table top** is 1" thick with a matching 2mm ABS flat edgeband. all wood substrate is EPA Toxic Substances Control Act (TSCA) Title VI certified. table top is available in five finishes, Pearl Gray, Oxford White, Autumn Oak, Sugarpine and Summer Walnut. optional modesty panel is available in Oxford White finish.
- 2 table top support** fabricated in steel and powdercoated in Posh Silver finish.
- 3 table legs** are brushed aluminum in clear anodized finish. leg end trim in plastic in black finish.
- 4 leveling glides** fabricated in carbon steel in chrome finish.
- 5 cutouts** are standard on table tops for grommets or electrical surface mount modules. grommets and covers in plastic are included in silver finish.
- 6 cable trays and table top metal support beam** included in Posh Silver finish

raceway storage for L, T & U workstation

raceway storage is designed to support table top and credenza top for L, T & U workstations.

1 channel with metal stop walls in the back of storage chassis allows for power and data access.

2 grommets available on both top and side panels of storage for wire management.

3 single storage module available in 3 configurations.

[see page 27 for details]

4 double storage module available in 2 configurations.

[see page 27 for details]

5 raceway storage common tops are 1" thick with a matching 2mm ABS flat edgeband, available in five finishes, Pearl Gray, Oxford White, Autumn Oak, Sugarpine and Summer Walnut. storage chassis is available in Oxford White finish.

all raceway storage tops are packed separately.

6 storage pulls and locks available in chromium plated finish

raceway storage standard height 22" and depth 20". leveling glides adjustable to 3/4". all lockable storage available in keyed alike or keyed random. keyed alike and keyed random cannot be mixed on any individual order. see lock and key program page for details.

all wood substrate is EPA Toxic Substances Control Act (TSCA) Title VI certified.

raceway storage base unit drawers come pre-assembled, door and open units require assembly

raceway storage planning logic for L, T & U workstation

L workstation requires a double raceway storage module as the return. the base unit under the table is available in open unit only and the second unit is available in drawer or open unit.

T workstation requires a double raceway storage module as the return for the table as the first building step. For the second step, add one or more single raceway storage module(s) to create the T. for the double raceway storage modules, the base unit under the table is available in open unit only and the second unit is available in drawer or open unit.

U workstation requires a double raceway storage module as the return for the credenza as the first building step to connect one single raceway storage module. For the second step, add one open single raceway storage module to support the table.

the storage modules under the table and credenza only available in open 30"W, the storage module in between the two open storage only available in 36"W in open and drawer units.

notes,
table cannot be supported by a single raceway storage module as a stand alone workstation, it must be supported by a double raceway storage module.

for U workstation, the single storage module supporting the table must be connected to the double storage module.

raceway storage power data integration

channel with metal stop wall is built into the back of raceway storage to allow for power and data access. grommets available on both top and side panels of storage for wire management.

power module kit for raceway storage

mounts to the back panel of raceway storage, available in plugin single circuit electrical system with one or two power module configurations

A power module plugin kit

consists of one power module, one set of four 15A simplexes, and one 6' plugin single circuit powerfeed.

application for when the distance from the center point of power module to power source is less than 5 1/2'

B power module plugin kit

consists of one power module, one set of four 15A simplexes, and one 6' plugin single circuit powerfeed with one 9' extension.

application for when the distance from the center point of power module to power source is greater than 5 1/2' and less than 14 1/2'

C power module plugin kit

consists of two power modules, two sets of four 15A simplexes, one 6 1/2' jumper cable and one 6' plugin single circuit powerfeed.

application for when the distance from the center point of power module that is closer to power source is less than 5 1/2'

D power module plugin kit D

consists of two power modules, two sets of four 15A simplexes, one 6 1/2' jumper cable and one 6' plugin single circuit powerfeed with one 9' extension. application for when the distance from the center point of power module that is closer to power source is greater than 5 1/2' and less than 14 1/2'

E Chicago electrical J box

compliant with city of Chicago electrical code, only compatible with UL certified rectangular duplex receptacles, 1 1/4"W X 2 1/2"H

[receptacles not included]

F data kit

mounts to the back panel of the raceway storage and houses data plate for RJ11 and RJ45 telecom connectors [telecom connectors not included]

all electrical and data components are UL certified and available in silver finish

accessories

d series conference table

1 glass table top available in ultra clear and back painted glass with a 2mm beveled edge 1/2" thick in Pure White finish.

glass tops are not secured to table frame and are placed on anti-slip pads that are adhered to the frame. if the glass table needs to be moved, remove the glass top prior to moving the table.

d series conference tables are compliant with the requirements of the BIFMA 5.5 Desk Table Products standard for strength and stability tests.

wood laminate tops are 1" thick with a matching 2mm ABS flat edgeband available in Oxford White finish. EPA Toxic Substances Control Act (TSCA) Title VI certified, tops are attached to table frame with fasteners.

2 table legs are brushed aluminum in clear anodized finish. leg end trim in plastic in black finish. leveling glides fabricated in carbon steel in chrome finish adjustable to 1 3/4".

3 frames fabricated in steel and powdercoated in Posh Silver finish.

4 t shaped trims in clear plastic are included inbetween glass top segments for protection.

protective spacers are included for glass

5 tops on the center of the frames and on the corner connectors.

cutouts both powered and non-powered

6 conference tables are only available with cutouts for all top segments.

grommets included for non-powered table option powdercoated cast aluminum in Posh Silver finish.

for powered table options, see power & data spec pages.

cable trays powdercoated in Posh Silver

7 finish are included for 60" round and all double ellipse tables. cable trays are attached to two sides of the frame.

8 cable column available in aluminum with clear anodized satin finish. one cable column included for multiple segment tables with daisy chain powered system options. exception: two cable columns are included for four segment 60" depth tables with daisy chain plugin system option. cable column can be ordered separately for all other tables.

d series conference grommets

round grommet

grommet for 48" depth table

grommet for 60" depth table

d series conference electrical modules

round module

double door module for 60" depth table

single door module for 48" depth table

d series conference table power & data

power & data for conference available in three different modules, each designed for a specific category of tables and used in one of three **preconfigured** powered systems: standalone plugin system, daisy chain plugin system and daisy chain hardwire system. all electrical components are UL certified.

note: power & data components not sold separately.

round module

designed for round, square and single segment double ellipse tables as shown right, includes one 15A/120V AC simplex, two 2.0A/5V USB charging ports powdercoated in Pearl Silver finish.

application

standalone plugin system

one module with corded plug for each cutout, each module plugs directly into a standard receptacle. module cord length 72". cable column ordered separately.

d series conference table power & data

rectangular single door module

designed for 48" depth double ellipse multiple segment tables as shown right, includes three 15A/120V AC simplex, two 2.0A/5V USB charging ports, one cable access plate, single retractable door powdercoated in Pearl Silver finish.

application

standalone plugin system

one module with corded plug for each cutout segment, each module plugs directly into a standard receptacle. module cord length 108". cable column ordered separately.

daisy chain plugin system

one module for each cutout segment, the system has one circuit and connects up to five modules with one plugin 72" power feed.

one cable column is included and can be mounted to inner cross members of frames for multiple segment tables to accommodate different locations of the floor monument.

daisy chain hardwire system

one module for each cutout segment, the system has two circuits and connects up to ten modules with one hardwire 84" power feed.

one cable column is included and can be mounted to inner cross members of frames for multiple segment tables to accommodate different locations of the floor monument.

d series conference table power & data

rectangular double door module

designed for 60" depth double ellipse multiple segment tables as shown right, includes six 15A/120V AC simplex, two 2.1A/5V USB charging ports, one cable access plate, double retractable doors powdercoated in Pearl Silver finish.

application

standalone plugin system

one module with two corded plugs for each cutout segment, each module plugs directly into standard receptacles. module cord length 108". cable column ordered separately.

daisy chain plugin system

one module for each cutout segment, the system has one circuit and connects up to three modules with one plugin 72" power feed. exception: 60" depth double ellipse tables with four segments will have two plugin 72" power feeds.

one cable column is included for two and three segment tables and two cable columns are included for four segment tables.

cable columns can be mounted to inner cross members of frames to accommodate different locations of the floor monument.

daisy chain hardwire system

one module for each cutout segment, the system has two circuits and connects up to six modules with one hardwire 84" power feed.

one cable column is included and can be mounted to inner cross members of frames for multiple segment tables to accommodate different locations of the floor monument.

freestanding credenza

1 wood veneer credenza

available in two finishes, Sunrise Walnut and Midnight Ash. fabricated with premium hand selected natural walnut and ash veneer, quarter sliced and slip matched with matching wood edgeband. wood grain runs parallel to the length of all storage tops, wood grain runs vertical on all vertical storage surfaces, protected by waterborne finish for the common tops and an advanced UV-cured coating finish for the chassis in an open pore low sheen finish.

veneer credenza base units drawer, door and open come pre-assembled.

2 laminate credenza

3 laminate credenza common tops are

available in five finishes, Pearl Gray, Oxford White, Autumn Oak, Sugarpine and Summer Walnut.

storage chassis is in Oxford White.

tops are 1" thick with a matching 2mm ABS flat edgeband.

all freestanding credenza laminate tops are packed separately.

laminate credenza base unit drawers come pre-assembled, door and open units require assembly

all freestanding credenzas

4 floating glass tops

in ultra clear, tempered and back painted glass in Pure White finish with a 2mm beveled edge 1/2" thick.

5 support frame

is fabricated in steel and powdercoated in Posh Silver finish.

6 credenza pulls and locks are in chromium plated finish.

grommets standard on the back panel for wire management.

leveling glides adjustable to 3/4".

all lockable storage available in keyed alike or keyed random. keyed alike and keyed random cannot be mixed on any individual order.

[see pages 69-70 for lock and key program details]

all wood substrate is EPA Toxic Substances Control Act [TSCA] Title VI certified

lock & key

idesk lock and key program

available in keyed alike or keyed random options, the two cannot be mixed on any individual order.

factory default lock cylinders are pre-installed in all storage units with the exception of storage units with hinged doors which require field installation.

replacement of default pre-installed cylinder is required for both keyed random and keyed alike scenarios, sets of lock cylinders with keys will be shipped separately.

keyed alike

available in groups of up to 10 keyed alike locks per workstation, each group comes with a standard range of key numbers from 002 to 100.

a key number will not be repeated unless there are more than 100 workstations. For projects with more than 100 workstations requiring no repeated key numbers or for a workstation requiring more than 10 keyed alike locks, contact Customer Service.

keyed alike is available at no charge if placed with the furniture order. If product is ordered and shipped keyed random, additional cylinders and keys for keyed alike are billable.

to specify product keyed alike, see example below.

a scenario for 10 workstations:

workstation typical A has 2 keyed alike locks, total 5 workstations

workstation typical B has 4 keyed alike locks, total 3 workstations

workstation typical C has 1 lock only, total 2 workstations

On your purchase order enter the item number 'PAT_' with the quantity of keyed alike locks for each workstation typical, then enter the total quantity of the workstations for that typical.

item #	quantity
PAT <u>2</u>	5
PAT <u>4</u>	3
PAT <u>1</u>	2

keyed alike for add on furniture

to specify keyed alike for add on furniture to match existing workstation lock number, on the purchase order enter item number 'PAA - ___' with existing workstation lock number in 3 digits and the total quantity of locks.

example for additional 4 locks for add on furniture to match the existing lock number 009.

item #	quantity
PAA - <u>009</u>	4

keyed random

to specify product keyed random, on the purchase order enter 'PKR' as an item number and 'keyed random' as the description one time for the entire order, no quantity needs to be specified.

idesk will arbitrarily assign locks from a pool of 100 different key numbers. random means no effort has been made to match key numbers, or to make them different.

Note: all locks for a lockable unit with multiple storage modules will be the same number.

keys

lock Key

two keys are shipped with every lock cylinder. up to 99 key numbers are available, for numbers greater than 99 contact Customer Service.

change key

a change key is required to install or remove lock cylinders. one change key will be included on every order for every 50 locks.

master key

master key is designed to unlock locks, it cannot install or remove lock cylinders. a standard letter of authorization from idesk approved by the client must accompany orders for master key. master key is available upon request and is billable.

installing & replacing lock cylinders

installing lock cylinder: a change key is required to install the lock cylinder.

replacing existing lock cylinder: an existing key or a master key is required to first lock or unlock furniture depending on the specific product item, then a change key is required to remove the existing lock cylinder and install the new cylinder. see assembly instructions for details.

replacement keys

a new set of 2 keys with the same number can be ordered for replacement and are billable.

replacement lock cylinder with keys

replacement lock cylinder with keys are available and billable.

care and maintenance

idesk's finish provides superior strength with enhanced stain and mar resistance for easy maintenance. however, care must be exercised whenever cleaning materials constructed of wood. Certain precautions will keep new furniture looking new:

- normal routine cleaning with soap and water will decrease how much of the virus is on surfaces and objects, which reduces the risk of exposure
- glass tops are not secured to table frame and are placed on anti-slip pads that are adhered to the frame. if the glass table needs to be moved, remove the glass top prior to moving the table
- dust all surfaces on a regular basis with a soft damp cloth, in the grain direction; do not use spray polishes or those containing silicone
- lift all objects when moving ; never drag objects across the finished surface; sharp metal objects such as keys, spring binders and briefcase hinges should be kept from contacting the finished surface
- wet objects should be placed on coasters; use a desk pad for writing
- bottoms of items like flower vases and desk accessories should be protected
- contact with certain plastics may result in discoloration and finish damage
- use of felt pads under electronic equipment is recommended
- furnishings exposed to ultraviolet rays may change color

idesk's hardware is selected for easy maintenance. Certain precautions will help to keep these items looking new:

- lubricate the housing and ball bearings of drawer suspensions every six months with a high quality petroleum jelly type lubricant
- furniture settles over time, to ensure correct drawer alignment, check unit is level and adjust glides as required

InStock Program Availability & Lead time

The InStock Program refers to product made 'for stock' rather than 'made to order' with standard product inventory available in certain volume levels. Inventory is replenished on a regular basis. At times, product may not be available because of sales substantially exceeding the average historic volume.

Normally, idesk standard products are shipped within 5 business days, transit time is 2 to 5 business days depending on shipping destination.

Ordering

- An approved credit application is required to open an account with the Company to process an order. Orders can only be accepted from authorized customers in writing.
- Orders need to be submitted with complete information including requested ship dates other than the normal idesk products shipping times, which are within 5 business days.
- Orders with requested ship dates more than 14 days from the date order is received will not be accepted unless order is prepaid in full, which is then required to ship within 30 days from the date the order is received.
- any customer extensions beyond 30 days from the date the order is received will incur storage charges except COM orders.

Order Acknowledgment

The Company sends acknowledgments on all orders. The Order Acknowledgment is the final agreement between the Company and the customer, superseding all previous communications regarding that order.

Back Orders

In the event an item is not available, the following options are available and need to be confirmed in writing:

Option 1: Hold order until back order is available through regular inventory replenishment for the regional distribution center where the customer is located.

Option 2: Partial ship available product and ship back order items when product becomes available.

Customer is responsible for minimum freight charge for both the initial partial shipment and subsequent back order shipments if applicable.

Pricing

Pricing is based on the list price at the time the purchase order is received.

Price Adjustments

In general, in the event of a price adjustment, orders received prior to the price adjustment but not shipped before the price adjustment effective date may be subject to adjusted pricing.

Zone Pricing

Standard program pricing is based on orders shipped to a destination within the state the customer is located. Pricing may vary to a destination outside the state the customer is located based on the freight cost structure.

Minimum Freight & Accessorial Charges

Idesk product is delivered through partner carriers who require minimum freight and accessorial charges. Minimum freight cost may vary shipping to a destination within the state or outside the state the customer is located.

Customers need to indicate the following delivery requirements upon order placement to acknowledge the additional accessorial costs in advance. If the information is not provided in advance but is required in order to complete the delivery, the accessorial charges will be billed to the customer after the delivery is completed.

- liftgate \$75 net
 - inside delivery \$75 net
 - residential delivery \$160 net
 - non-commercial delivery \$125 net
 - limited access delivery \$175 net
 - call before delivery \$15 net
- rates are subject to change without prior notice.

Customer's Own Material (COM) & Product Modifications

The customer is responsible for ensuring that the COM fabric is certified to meet all regulatory flame-retardant requirements. All COM seating fabric must, at minimum, meet CAL 117 requirements. If the customer requires the chair be tested to meet the fire safety standards of CAL 133, additional testing and information is required. The Company shall have no responsibility for the condition, quality, value, performance, physical properties, or any other aspects of the COM.

The Company shall have no liability for any damages, injuries, or losses to the customer or to any third party that shall be caused by any COM or product modification, and the customer shall hold the Company harmless for all liability.

Special Order Program

Once the production of special orders is complete, products must be shipped within 2 weeks or additional storage charges will apply, if the product is not shipped after 4 weeks, the customer will be responsible for the total invoice value and product may be forfeited.

Cancellation and Order Changes

Standard InStock Program

Cancellations or revisions will not be accepted once the order has been entered.

Special Order Program

Cancellations or revisions of customized product special orders will not be accepted once the order has been entered, customer will be responsible for the total invoice value.

Returns

Product returns will not be accepted once the order has been shipped based on commercial furniture industry standard.

Claims

The Company does not cover the costs of transportation or labor for claims.

Freight Damage & Refusals | Shortages

Customers must make a notation on the Delivery Receipt for product freight damages or shortages, otherwise the claim will not be approved as such claim will not be accepted by the freight carriers based on shipping industry standard.

Customers need to file the freight damage claim with photos of damaged cartons through the website within 15 calendar days of receipt of goods or the claim will not be approved based on carriers' requirements.

Concealed Damage & Manufacturing Defect
Customers need to file the claim within 30 calendar days of receipt of goods or the claim will not be approved.

Customers must attach photos of each product item and corresponding carton and file the claims through the website.

The claim may not be approved if the product is moved from the original 'ship to' location.

Container Purchase

For container purchases the claims for damages, shortages and manufacture defect must be filed through the website within 30 calendar days of receipt of goods or the claim will not be approved.

The claim may not be approved if the product is moved from the original 'ship to' location.

Limited Lifetime Warranty

idesk [hereafter referred to as the Company] warrants to the original purchaser that products will be free from defects in design, material and workmanship under normal commercial use and care. The normal commercial use for seating is defined as a single shift [standard 8 hours per day, 5 days per week] by a person weighing less than 250 lbs. All products are covered by the Limited Lifetime Warranty with the exception of the items below:

terms & conditions

10 Year Warranty

- Wood casegoods
- Wood seating
- Glass product
- Seating controls
- Computer monitor arms

5 Year Warranty

- Pneumatic cylinders & casters
- Power modules and electrical components
- LED task lights
- Electric height-adjustable bases (including memory control)
- Foam, knit back, mesh and plastic

3 Year Warranty

- Fabric

Warranty exclusions

- Damage caused by cleaners containing cleaning chemicals
- Product abuse or misuse
- User modification of or attachments to the product
- Failure resulting from normal wear and tear
- Products or parts not used, maintained or installed in accordance with the Company's installation, maintenance and/or applicable guidelines
- Products that are exposed to extreme environmental conditions and/or have been subject to improper storage
- Floor samples or display models
- Products purchased 'as is' or pre-owned
- Products sold by unauthorized dealers
- Creasing and/or gathering of textiles during upholstery
- Minor irregularities of color, surface, grain, and texture
- Minor variations of color in textiles
- Color-fastness or color matching of textiles exactly to samples, swatches or prior purchases
- Customer's own materials (COM) selected by and used at the request of the user
- Products used for rental purposes
- Damage caused by cleaning chemicals
- Dye transfer caused by external contaminants (including clothing and accessory dyes such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible

The Company will repair or replace with a comparable product, at its option at no charge to the original purchaser, only for defective products or parts found defective during the Warranty Period. **The Company's warranty does not cover the costs of transportation or labor.** If requested by the Company, the original purchaser must return the part or product with freight or other shipping charges prepaid. This warranty shall be effective for the applicable time period beginning from the date of purchase as shown on original purchaser's receipt. Once products or parts have been repaired or replaced, the warranty period shall remain effective for the applicable time period beginning from the date of purchase as shown on original purchaser's receipt.

Limitation of Liability

Under no circumstance, including but not limited to breach of contract, breach of warranty or negligence, shall the Company be liable for lost profits, loss of goodwill, stored data, general, special, consequential or exemplary damages, even if the Company had notice of these damages or they were foreseeable. The Company's liability in all cases shall be limited to repair or replacement of the defective parts, or credit for the original purchase price of the product. Damages resulting from misuse, abuse, alteration, negligence, or accidents are not covered under this warranty.

Except as otherwise provided, the Company makes no other warranties, expressed or implied, including but not limited to the warranties of merchantability and fitness for a particular purpose.

Warranty Requests

All warranty requests should be made through distributors and dealers where the product was purchased.

Disclaimer

Prices shown are list prices. The Company reserves the right to correct any typographical errors at any time and make product changes without prior notice.

Measurements listed in price book are rounded off. Please contact customer service for exact measurements. 06/14/2021
